## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claim 48 is rejected under 35 U.S.C. 102(e) as being anticipated by Betts et al. Betts et al. discloses a guidable reamer assembly. It has a cutting member **10** having a central longitudinal axis **2** and a support member **3,4** having a central longitudinal axis **2**. There is a steering assembly **14** moveable between a steering position (fig. 3) and a non- steering position (fig. 1) and adapted to laterally offset the central longitudinal axis (**2** to **8**) of the cutting member from the longitudinal axis of the support member when the steering assembly is in the steering position.

### ***Allowable Subject Matter***

3. Claims 1-47 are allowed.

### ***Response to Arguments***

4. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.
